Memo to File:

Re: Winecup Resources  
Taylor Livestock Mine  
ACT/019/016  
Grand County, Utah

On April 5, 1983, Susan Linner, Tom Portle, Tom Tetting and Pam Grubaugh-Littig visited the site of the Winecup Resources operation. No additional disturbance had been done at the mine site and the area appeared to be well stabilized, with a little erosion occurring in the highwall and road areas. No cracks were evident in the dam. The land adjacent and to the east of the mine area, owned by Taylor Livestock, had been marked for the new road.

On April 8, 1983, Mr. D.L. Taylor of Taylor Livestock called Susan Linner to indicate that he was taking out a \$2,000 Certificate of Deposit in Moab to cover the surety for the minesite. He was told to make the Division a co-signer of the certificate and to have the bank send formal notification of the opening of the account and the amount to the Division.
